The shipping industry is an essential component of international trade and it has played an important role in establishing global ties between business organisations. Businesses rely upon the efficient distribution of their products in order to compete and meet customer demands.

ABMA's Clearing, Forwarding and Shipping Management Certificate, Diploma and Advanced Diploma qualifications will prepare you for a diverse and challenging career in the transport and logistics industries.

The programme focuses on establishing a foundation of knowledge of shipping and office practices as well as practical elements including the storage of goods and will develop your critical awareness of the fundamentals of the shipping industry. You will continue to explore these concepts more thoroughly at an Advanced Diploma level, as well as adding to your knowledge of shipping practice by studying shipping operations and ship management.

A role within the transport and logistics industries will be challenging and this reflects the satisfaction that can come from contributing to international and global business partnerships.
